

The **Supplier Control** module is used to maintain the approved supplier list, and to record and process nonconforming deliveries and supplier corrective action requests (CARs). You can also generate a **PDF reports** for a particular supplier, NC delivery, or CAR; and a **PDF printout** of all suppliers as they appear in the table (read more about reports in tutorial [Navigation And Common Features - Reports](#)).

To **sort** any table, click on the column header.

Use the **sidebar menu** to add, edit, or delete suppliers, NC deliveries, and CARs.

Read more about the sidebar menu in tutorial [Navigation And Common Features - General Navigation](#).

Use the **Setups** menu to set up:

- Product categories,
- Nonconformity (NC) categories,
- Nonconforming product dispositions, and
- Corrective action (CAR) categories.

The **supplier record** includes such information as the company name, contacts, type of supplied products, and information about how the supplier was evaluated and who approved the supplier.

Nonconforming deliveries/services for supplier: PCK-05/08 - Perfect Container Packaging Co.

Report	No	Title	Date	Category	Disposition	CAR	Training
Add New	001	Wrong lids for 1 Gal HDPE bottles	7/30/2008	Wrong Product Shipped			

The **nonconforming delivery records** and **supplier CARs** could be handled by the general corrective action and nonconforming product systems as well. Indeed, that is the most common way. However, in **ISOXpress**, these records are integrated into the **Supplier Control** module to provide a more immediate overview of the supplier's performance.

Corrective action requests for supplier: PCK-05/08 - Perfect Container Packaging Co.

Report	No	Title	Date	Category	Due Date	Status
Add New	001	Wrong lids for 1 Gal HDPE bottles	8/14/2008	Wrong Product Shipped	9/15/2008	OPEN

The **corrective action record** is basically the same as the CAR record in the **Corrective Action** module.

The **nonconforming delivery record** is basically the same as the nonconforming product record in the **NC Product** module.
